We have got it handled.
We are fuel delivery veterans.

You do not have to approve anything. You do not have to worry about anything.

You focus on fuel, tanks, trucks and deliveries. We handle your review replies, communications and marketing. That saves you time and makes marketing stress-free and worry-free.

For on-demand gasoline and diesel delivery companies. Already on Blink Fuel? We work on the site you have.

I'm Bill Stomp. I ran 87 branch offices across 12 states over a 25-year operator career. I've helped over 250 fuel delivery companies. Our team is helping over 100 companies across our business today.

WHAT WE HANDLE

Pages for the towns you serve
Each one written about a town you really serve.

One to two articles a month
Published under your company's name, in your voice: deliveries, fleet and equipment fueling, the questions your office answers.

AI search work
We tidy your pages and listings for AI search and check whether AI tools name you.

Search work on the words buyers type
“gasoline delivery near me” and “diesel delivery near me” in your towns, with rank tracking.

Listings checked, with a fix list
We check names, addresses and phone numbers. Our team works through the fixes.

Review requests and replies
We handle them. Our team checks the request wording and each reply first. Requests go to every customer who gave permission, with an opt-out. No picking, no rewards.

Customer emails
We handle seasonal emails from your company's address, only to customers who gave permission, with an unsubscribe link.

A plain-English monthly report
What changed and what we did. Tell us to pause the marketing work anytime.

START BEFORE YOUR BUSY STRETCH

Town pages and profile changes can take weeks to show up in search.

IF YOU RUN BLINK FUEL

We check your app connection and set the delivery email plan at signup; emails go only to customers who gave permission, with an unsubscribe link.

HOW STARTING WORKS

1. Tell us the towns you deliver to and give us account access. We handle the rest.
2. We connect your accounts.
3. Our team handles your marketing plan and checks the work before it goes out. You have a team behind you. You can look anytime; you never have to.

We handle search work and track the results, without promising rankings, AI mentions or directory changes.

Price. One setup fee, then a monthly fee for the agreed work. 12-month agreement covering setup and service, then month-to-month.
